INTRODUCTION and GENERAL INDEX

R. L. POLK & CO., publishers of the Monterey, Pacific Grove, Carmel City, Seaside and Del Rey Oaks Directory, as well as more than 750 other city, county, state and national directories, present to subscribers and the general public this, the 1957 edition of the above directory, which also includes a directory of the rural free delivery box holders on the Carmel and the Big Sur Valley routes.

Confidence in the continued growth of Monterey and vicinity's wealth, industry and population, and in the advancement of its municipal and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting Monterey and vicinity to the world.

The enviable place occupied by R. L. POLK & CO.'S directories in offices, stores, libraries and homes throughout the country, has been established by rendering the best in directory service. With an unrivaled organization, and having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that this directory will fulfill its mission as a source of authentic information pertaining to the community.

Five Major Departments

The five essential departments are arranged in the following order:

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Monterey, Pacific Grove, Carmel, Seaside and Del Rey Oaks, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns for Monterey, Pacific Grove, Carmel, Seaside and Del Rey Oaks is the second

major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Monterey and vicinity, and the name, official personnel, nature and address of each firm and corporation.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE for Monterey, is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and telephone numbers as supplied to us on canvass are shown opposite the name. There are similar sections for Pacific Grove, Carmel and Seaside.

IV. THE NUMERICAL TELEPHONE DIRECTORY for Monterey, Pacific Grove, Carmel and Seaside is the fourth major department, printed on blue paper.

V. THE CARMEL RURAL ROUTE DIRECTORY is the fifth major department, printed on white paper.

Community Publicity

The directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site, and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of Monterey and vicinity, for business men everywhere realize that the City Directory represents a community as it really is.

The Monterey Directory Library

Through the courtesy of the publishers of the Monterey, Pacific Grove, Carmel and Seaside Directory, a Directory Library is maintained in the offices of the Monterey Chamber of Commerce, for free reference by the general public. This is one of more than 700 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the directory as an advertising medium, with assurance that it will bring a commensurate return.

- Industry and Labor Market—Only a few light industries and research centers in addition to three fish canneries remaining in operation. Employment dependent upon tourist trade is seasonal with peaks between months of May and October. Office and retail sales positions for women are normally in fair abundance.

GENERAL REVIEW

Most of the early day charm of California's first capital (from 1776 to end of 1849) under the Spanish and later under the Mexican flag is retained in the historic buildings and homes of the old town. Monterey's numerous residential districts provide beautiful natural settings for homes and gardens of people from all parts of the world who come here to take advantage of the mild climate and the warm hospitality of "Old Monterey." Here the first Constitution of the State was written at Colton Hall. Monterey became the capital of California in the same year that Philadelphia became the capital of the Atlantic colonies. The port of Monterey was named in 1602 by Sebastian Viscaïno—18 years before the Pilgrims landed at Plymouth Rock.

In 1770 Father Serra founded the San Carlos Mission which he later moved to Carmel. The San Carlos church is still in use and contains the vestments of Father Serra while his body is interred in the Carmel Mission.

Started by Mexico in 1827 and completed in 1846, the Custom House has flown the flag of two nations from its flagpole. Here Commodore Sloat first raised the stars and stripes when the United States formally took California in July 1846. It is the oldest governmental building in California and is now owned by the State of California as a historical monument and is maintained by the Parks Commission as a historical museum.

Monterey is rich in historic lore and tradition and many fine old buildings, some of them the inspiration for the Monterey type homes which are now popular in many parts of the world, have been faithfully preserved and have proven a source of inspiration and pleasure to visitors and residents alike.

Aside from recreation, which amounts to industry in this region, commercial fishing is still an important part of Monterey. At one time Monterey Harbor was a center of the sardine fishing and canning of the West Coast. The

fishing industry began in 1904 when F. E. Booth established the first cannery for processing the sardines in Monterey. Later it had developed into a million dollar industry with a \$20,000,000 canning and processing plant in the Cannery Row in Monterey and some sixty purse sein type fishing vessels, valued at approximately \$6,000,000 at the Monterey Harbor. After the disappearance of sardines in 1950 and 1951 the purse seiners went for their catches all the way from Alaska to the Gulf of Mexico and into the South American waters. Since the 1949-50 season, when the dollar turnover was \$22,143,142.00, one of the highest in the history of Monterey, the canning has been diminishing until at the present time most of the canneries have been closed down, dismantled and converted to other types of industry.

Artists were on the Monterey Peninsula when Robert Louis Stevenson came in 1879. They have lived and worked here ever since, and with good reason. The place has been a haven for them. They can work out of doors every month of the year. It's so insistently beautiful they never become unaware of that beauty. Land and sea have never met more spectacularly than at the Monterey Peninsula and color is brilliant under sun and intense when muted by fog. Living can be simple and fairly inexpensive and the atmosphere is conducive to creative thought.

The first newspaper was born in California—at Monterey, August 15, 1846, although it was printed on material "used to envelop the tobacco of the cigar smoked here by the natives." The editor and founder was Rev. Walter Colton, chaplain on Commodore Stockton's frigate Congress.

The presidio of Monterey was founded by the Spaniards in 1770 and for many years was the headquarters of the 11th U. S. Cavalry. At present it is the U. S. Army Language School where 2,000 students are taking specialized work in 28 foreign languages.

Fort Ord, six miles north of Monterey, is one of the west's largest Army training installations.

The U. S. Naval Postgraduate School, located in the former Hotel Del Monte, is composed of the General Line School and the Engineering School and has about 1,100 officer students.

A STATEMENT OF ADVERTISING PRINCIPLES

- 1. Good Advertising**—aims to inform the consumer and help him to buy more intelligently.
- 2. Good Advertising**—tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
- 3. Good Advertising**—conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
- 4. Good Advertising**—recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

Transportation—Local bus connection to Monterey, Seaside, Carmel. Southern Pacific Railway and Greyhound bus lines. Convenient connections to Monterey Peninsula Airport (Southwest Airways and United Air Lines).
Museum—An excellent museum of Natural History with emphasis on sea life in this area.

GENERAL REVIEW

Pacific Grove, city of homes and home-loving people, lies adjacent to Monterey toward the northern tip of the Monterey Peninsula. Founded as a religious retreat, in 1869,

the town has grown into a prosperous and beautiful city. In 1879 the second Chautauqua in the United States was founded here.

The motorist will find attractions in Pacific Grove to make this stay one of pleasure.

For the Tourist

The tourist will find plenty of things to do and see here—Wonderful Marine Gardens to explore in glass bottom boats. Boating and bathing enjoyed under safest conditions. Experience the thrill of angling for gamest of fish.

Municipally Owned

Nine-hole golf course, in charge of expert professional.

A number of tennis courts, roque court and horse-shoe pitching.

Heated salt-water plunge. Spring boards and life guard.

Softball field, with grandstand seating 500.

A number of supervised children's playgrounds.

The greatest number of public parks of any city of its size in the State.

A \$40,000 Natural History Museum, one of the most complete of its kind. Its exhibits are visited by leading scientists from everywhere.

Butterfly Festival

The City welcomes annually the visit of the Monarch Butterflies. They come from as far north as the Canadian Rockies in October and leave in March, and have been doing so since time immemorial.

A Pageant is held in their honor about the middle of November each year, which is a colorful affair based on Indian legend, with many actors taking part. It is drawing increasingly larger audiences each succeeding year.

Pacific Grove Has Unique Personality

Pacific Grove is one of the most all-American cities in California. In its people, it is almost a bit of New England transplanted to the California coast. That is reflected in its many churches, customs, homes, personality, great voting capacity in elections, public interest in public affairs. Its people are almost entirely American for several generations past, and here they have built a beautiful city of homes where lawlessness of any sort is practically unknown. It is a city of well-kept gardens and flower lovers.

The beaches and rocks along this part of the coast offer wonderfully engaging games of "finding things" at low tide. It is natural, therefore, that at Pacific Grove has been

located the Hopkins Marine Biological Laboratory branch of Stanford University where intensive study of biology is carried on under the direction of a faculty of illustrious scientists.

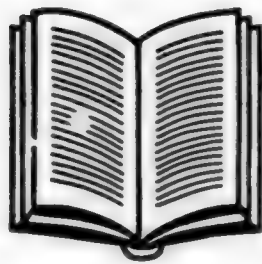

The most beautiful vistas on the scenic Seventeen-Mile Drive are found on the sightseeing trip from Pacific Grove around the Drive and through Pebble Beach to Carmel.

There are many entrancing walks and bridle paths to be found in the pines behind the town.

Here are unequalled motor roads leading to wonderful drives and to a hundred and one natural points of interest.

Fort Ord, a large military camp, is but twelve miles from Pacific Grove.

Follow the butterflies to Pacific Grove.

Newspapers—1 weekly.

Climate—Mean average temperature of 55 F, average annual rainfall of 15 inches.

Industry—None. Trade directed primarily toward tourists.

Agriculture — Nearby Carmel Valley under cultivation to small extent mainly in artichokes and strawberries.

GENERAL REVIEW

When the famous Spanish explorer, Don Sebastian Vizcaino, sailed into the nearby harbor of Monterey in the year 1602, there were two Carmelite Friars aboard ship. They asked permission to name the region to the south of Monterey for the order to which they belonged. Thus, Carmel was named, but it was not until the year 1770 that Mission San Carlos Borromeo was constructed, and the famed Mission still stands and is in active use. Here are the burial places of Father Junipero Serra and Father Lasuen.

The city of Carmel-by-the-Sea, is an unusual setting of scenic beauty, has a distinctive and picturesque charm. An informal, individualistic community, it is situated on the pine and oak wooded slopes rising fanwise from Carmel Bay and the mile-long beach of white sand. The beach has been kept free of commercial enterprises, and the delightful small business section begins about $\frac{1}{2}$ mile from the beach. There are zoning restrictions against most industrial activities, and the small shops of English, Spanish and fairytale architecture deal in staple and luxury goods, handicraft, gift and art merchandise.

The population of Carmel is cosmopolitan with many world-famous artists, writers, poets, actors and retired military personnel residing in the lovely residential sections. There are excellent schools, library, hospital, art gallery and theatres.

SEASIDE

"GATEWAY TO THE BEAUTIFUL MONTEREY PENINSULA"

STATISTICAL REVIEW

(Courtesy Chamber of Commerce)

Date of Founding—1900.

Government—Local Districts 6th class city—Mayor and 4 Councilmen, City Manager.

Population—18,000.

Elevation—4 to 400 feet.

Area—Four square miles.

Climate—An average mean temperature of 56 degrees F; average rainfall 16 inches.

Date of Incorporation—Oct. 13, 1954.

Parks—2.

Assessed Valuation—\$1,000,000.

Churches—26.

Newspapers—1 weekly.

Transportation—Bay Rapid Transit, Greyhound, Southern Pacific.

Education—5 elementary schools, 1 junior high school.

Civic Organizations—Lions, Rotary, Whiskerinos, V.F.W., "Slow Pokes," American Legion, Women's Civic Club, Business & Professional Womens Club, Youth Center, Optimists and Kiwanis.

Statistics—Seaside is 90% of the Seaside Fire District, which also embraces the city of Del Rey Oaks and the unincorporated areas to the east and west. Seaside is expected to withdraw from the District soon and will have its own department with enlarged personnel and equipment. Has a minimum building code, compulsory garbage and a modern sewage plant; a Chamber of Commerce; operates its schools through Monterey high school and elementary school districts.

GENERAL REVIEW

Joining the east limits of Monterey is Seaside, California.

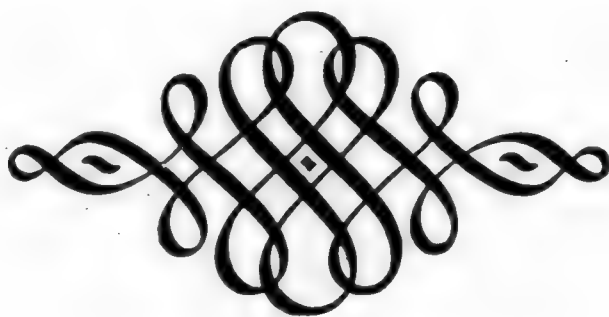

The area was founded by Dr. L. D. Roberts, who developed from grazing land for cattle into a thriving community of 18,000 persons. Dr. Roberts was a county supervisor for more than 20 years and was also largely responsible for the construction of the famous Coast Road between Carmel and San Simeon. He also aided in negotiations for the government purchase of Fort Ord Reservation which borders Seaside on the North and East.

Seaside potentially is the greatest district on the Monterey Peninsula for industrial development. It has considerable vacant property along the beaches of the Monterey Bay and along railroad lines. There are two main highways and a regular stop for the Southern Pacific trains.

The area is only a few minutes drive to the myriad of recreational facilities on the Monterey Peninsula, including Carmel, Pebble Beach, Carmel Valley and Big Sur.

Living within its borders are thousands of Army and Navy personnel who are stationed at Fort Ord and at the Navy General Line School and Army Language School.

The area is only a few minutes drive to the myriad of newspaper and numerous civic and patriotic organizations. It has a new, modern theatre and many modern buildings.

DEL REY OAKS

STATISTICAL REVIEW

**Do your employers
furnish you with the
latest edition of the
City Directory**

?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

"Miss Jones, Type 2,500 Personal Letters
...and Get 'em Out Today!"

Do you want *real response* from your customers and prospects? *A personally-typewritten letter gets the highest results!*

But you don't have the time, or facilities? And you can't afford the expense of hiring 30 typists? R. L. Polk & Co.'s Automatic Typewriter Division has the answer for you!

The world's largest battery of automatic typewriters—typing completely personalized letters, each individually pen-signed—can produce 500 or 15,000 typewritten letters for you,

READY TO MAIL—in a matter of hours. *And the cost is a fraction of what it would cost you to do it yourself.*

Simply send along your list, your letterheads and envelopes, your instructions. Or, ask for complete information from:

...About Your Car Owner Lists

Whatever information an auto owner puts on his license application appears on the new Polk official car owner registration list, now available to you. Every name on a Polk car owner list is "cleaned" ahead of time. Only names of persons to whom mail can be delivered are compiled for you. Polk Car Owner Lists are not "loaded" with extra names that would waste your time and money in sending out mail, or in making personal calls.

Success or failure of any direct mail advertising program depends on your keeping that list up to date.

Use Our Library of **OUT-OF-TOWN CITY DIRECTORIES**

A complete library of out-of-town City Directories is maintained especially for the reference use of our subscribers. We invite you to consult this library of up-to-date Directories when in need of names, addresses, and other information about firms and individuals in other cities. This is a part of our service to local City Directory users.

Your City Directory has HUNDREDS OF USES AND APPLICATIONS

BUYING

Learning new sources of supply.
Keeping up with known sources of supply.
Checking on the record of firms from which you buy
as to dependability, stability, etc.

SELLING *(Including market analysis and sales promotion)*

Locating new markets.
Maintaining up-to-date mailing lists.
Analyzing the buying power of a community or street.
Routing salesmen to avoid lost motion in reaching prospects.
Locating residents of hotels and apartment buildings, many of whom are listed nowhere else.
Identifying names and titles of officials, for use of salesmen.

CREDIT REFERENCE *(and Collections)*

Running down delinquent debtors.
Checking credit applications as to address, moving habits, names of employers, stability of employment, family status, neighbors, whether owner or renter, etc.
Identifying persons of same or similar names.
Investigating cases in welfare, charitable, social service and legal work.

DELIVERY *Communication, Mailing, Etc.*

Routing deliveries.
Reducing dead letters and insuring more complete delivery of mail.
Effecting delivery of messages and parcels erroneously or defectively addressed.
Correcting names and titles.

LAW ENFORCEMENT *Criminal Detection and Apprehension*

Tripping bad-check passers.
Deciphering illegible signatures.
Guarding against habitual bill dodgers.
Tracing heirs and witnesses, settling estates, and establishing facts as of a certain date.

CONSULT YOUR DIRECTORY FIRST

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1 An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2 A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3 A *Classified Business Directory*—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4 A "Yellow Section" or *Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.

5 A *Statistical and Historical Story* of your city; plus miscellaneous other information.

MONTEREY DIRECTORY OF HOUSEHOLDERS

POLK'S

MONTEREY

Directory of Householders, Occupants of Office
Buildings and Other Business Places, Including
a Complete Street and Avenue Guide

1957

Copyright, 1957, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No return". In each case the publishers tried diligently, by various means, to obtain the information for the occupants, but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

PACIFIC GROVE DIRECTORY OF HOUSEHOLDERS

POLK'S**PACIFIC GROVE**

Directory of Householders, Occupants of Office
Buildings and Other Business Places, Including
a Complete Street and Avenue Guide

1957

Copyright, 1957, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No return". In each case the publishers tried diligently, by various means, to obtain the information for the occupants, but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

CARMEL DIRECTORY OF HOUSEHOLDERS

POLK'S CARMEL

Directory of Householders, Occupants of Office
Buildings and Other Business Places, Including
a Complete Street and Avenue Guide

1957

Copyright, 1957, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No return". In each case the publishers tried diligently, by various means, to obtain the information for the occupants, but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

SEASIDE DIRECTORY OF HOUSEHOLDERS

**POLK'S
SEASIDE**

Directory of Householders, Occupants of Office
Buildings and Other Business Places, Including
a Complete Street and Avenue Guide

1957**INCLUDING DEL REY OAKS**

Copyright, 1957, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No return". In each case the publishers tried diligently, by various means, to obtain the information for the occupants, but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

SPECIAL NOTICE

THE PUBLISHERS

A STATEMENT OF ADVERTISING PRINCIPLES

1. **Good Advertising**—aims to inform the consumer and help him to buy more intelligently.
2. **Good Advertising**—tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
3. **Good Advertising**—conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. **Good Advertising**—recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for THREE HUNDRED and FIVE days, therefore $1000 \times 3\frac{1}{2} \times 305 = 1,067,500$

DIRECTORY ADVERTISING

BRINGS SATISFACTORY RESULTS!

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

Your City Directory has HUNDREDS OF USES AND APPLICATIONS

BUYING

- Learning new sources of supply.
- Keeping up with known sources of supply.
- Checking on the record of firms from which you buy as to dependability, stability, etc.

SELLING *(Including market analysis and sales promotion)*

- Locating new markets.
- Maintaining up-to-date mailing lists.
- Analyzing the buying power of a community or street.
- Routing salesmen to avoid lost motion in reaching prospects.
- Locating residents of hotels and apartment buildings, many of whom are listed nowhere else.
- Identifying names and titles of officials, for use of salesmen.

CREDIT REFERENCE *(and Collections)*

- Running down delinquent debtors.
- Checking credit applications as to address, moving habits, names of employers, stability of employment, family status, neighbors, whether owner or renter, etc.
- Identifying persons of same or similar names.
- Investigating cases in welfare, charitable, social service and legal work.

DELIVERY *Communication, Mailing, Etc.*

- Routing deliveries.
- Reducing dead letters and insuring more complete delivery of mail.
- Effecting delivery of messages and parcels erroneously or defectively addressed.
- Correcting names and titles.

LAW ENFORCEMENT *Criminal Detection and Apprehension*

- Tripping bad-check passers.
- Deciphering illegible signatures.
- Guarding against habitual bill dodgers.
- Tracing heirs and witnesses, settling estates, and establishing facts as of a certain date.

CONSULT YOUR DIRECTORY FIRST

**Don't Contribute to
Counterfeiters
KNOW YOUR MONEY!**

**Don't Be Fooled by
Forgers
KNOW YOUR ENDORSERS!**

The Government never redeems counterfeit money!

1. **KNOW YOUR MONEY!** Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits.

2. **COMPARE** a suspected bill with a genuine of the same type and denomination. Observe these things:

PORTRAIT *Counterfeit*—Dull, smudgy, or unnaturally white, scratchy; oval background is dark, lines irregular and broken. Portrait merges into the background.

Genuine—Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines.

**COLORED
SEAL**

Counterfeit—Saw-tooth points around rim are usually uneven, broken off.

Genuine—Saw-tooth points around rim are even and sharp.

**SERIAL
NUMBERS**

Counterfeit—Poorly printed, badly spaced, uneven in appearance.

Genuine—Figures firmly and evenly printed, well spaced.

PAPER

Counterfeit—Generally has no silk threads, but these may be imitated by very small red and blue ink lines.

Genuine—Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn.

3. **RUBBING** a bill on a piece of paper will not prove it is genuine or counterfeit; ink can be rubbed from good bills as well as bad ones.

4. **CONSULT** an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

5. **REMEMBER, NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.**

This information is reprinted from the U. S. Secret Service 32-page booklet, "KNOW YOUR MONEY", which tells how to detect counterfeit coins and bills and how to guard against losses from forged Government checks. Copies may be purchased for 10c each, or \$7.50 per 100, from the Superintendent of Documents, Government Printing Office, Washington, D. C.
